

THE DIFFERENT FORMS OF INTELLIGENT CARE

We set ourselves a challenge when we created Intelligent Care. We wanted to reimagine what a tap could be for healthcare professionals, and how it helps to keep patients safe and minimise the risk of infection.

Digital technology is at the core of Intelligent Care. It's ideal for the modern connected world:

- Controls water temperature and flow times with precision
- Automates essential hygiene measures, such as smart duty flushing
- Automatically logs compliance data
- Remotely monitor the performance of your taps
- Provides usage data about your water system to inform change and best practice

This functionality is backed up by great engineering and design:

- Pioneering new thermostatic valve improves microbe resistance
- Its vivid non-touch display makes control simple and helps minimise the spread of bacteria
- Sleek and modern form that looks great and is easy to clean
- Simplification of internal workings significantly reduces spaces where water can become trapped and breed bacteria
- Brass valve and a reduction in polymers and elastomers improves microbe resistance

Whether it's a ward, surgical scrub room or visitor washroom, there's an Intelligent Care tap that's ideal for the space.

Want to know which taps fit your requirements?

Contact us and we'll help. Alternatively, quote the product codes overleaf of the taps you're interested in and we'll tell you more.

FOR CLINICAL SETTINGS*

Intelligent Care basin and panel mount taps with non-touch temperature and flow controls.

Thermostatic basin tap
RADA MX1 20CUK (72940-CP)

Thermostatic high basin tap
RADA MX1 40CUK (74010-CP)

Thermostatic panel mount tap
RADA MX1 60UK (72946-CP)

Thermostatic panel mount tap
RADA MX1 80UK (76670-CP)

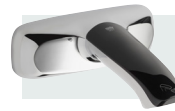

Intelligent Care basin and panel mount taps with non-touch flow controls.

Thermostatic basin tap
RADA MX1 20NCUK (72941-CP)

Thermostatic panel mount tap
RADA MX1 60NUK (97390-CP)

Thermostatic panel mount tap
RADA MX1 80NUK (76676-CP)

* All options for clinical settings are HTM04-01 and HBN00-10 compliant. Contact us for more information about how Intelligent Care can help you meet compliance guidelines.

FOR NON-CLINICAL SETTINGS

A variant of the Intelligent Care basin tap for use in places like visitor washrooms, with a choice between the two available control options.

Intelligent thermostatic basin tap
(TC included)
RADA MX1 20F (72942-CP)

Intelligent thermostatic basin tap
RADA MX1 20NF (72943-CP)
