

INTELLIGENT CARE ANSWERING YOUR WATER SAFETY NEEDS

Intelligent Care is our latest generation of digital taps, created to help you achieve the highest standards of infection control and safety. Its market leading design and functionality gives you peace of mind that your duty of care is covered.

Digital technology is at the core of Intelligent Care. It's ideal for the modern, connected world:

- Achieve handwashing best practice with programmable run times
- Control water temperature with digital precision
- Water management optimised with 'intelligent' duty flushing
- Health and performance of taps maintained through remote monitoring
- Peace of mind that you're complying with guidelines with smart data logging

This functionality is backed up by leading engineering and design:

- A pioneering new thermostatic valve improves microbe resistance
- Minimise the risk of cross-infection with non-touch, gesture controls
- A sleek and modern form that looks great and is easy to clean
- Simplified internal workings significantly reduces spaces where bacteria can breed
- Improved microbe resistance with intelligent use of materials

With our broad range, there's an Intelligent Care tap that's perfect for every commercial space.

PUT THE EXPERTS TO THE TEST

Contact Rada and we'll help you create safer facilities. Quote the product codes overleaf of the taps you're interested in and we'll tell you more.
