A HOME FROM HOME ENVIRONMENT FOR STUDENTS

Student accommodation providers must be confident that bathroom taps, showers and water controls are always delivering a great experience for students, while meeting critical safety requirements and operating efficiently.

“A welcoming place to live is vital to student wellbeing and academic success.”

Safe and comfortable washrooms are key to achieving exactly that.”

IN THE
2020/21
ACADEMIC
YEAR:

A RECORD PERCENTAGE
of UK 18 year-olds started
university

Student beds
increased by
21,000

IN **10 YEARS' TIME**,
POPULATION
PROJECTIONS
INDICATE:

1 MILLION MORE
18 year olds

Rada is a leading manufacturer of water controls and washroom products for shared buildings. We know what it takes to deliver washrooms that make for a great student living space.

We have 80 years' experience in developing leading products for this evolving market, with customer and end user needs always put first.

- **Huge water and energy savings** to improve efficiency and running costs
- **A welcoming experience for students** with stylish taps and showers that keep people safe and are great to use
- **Peace of mind with** high-quality fitting solutions that meet your maintenance and cleaning needs

“Student numbers to UK universities look set to increase dramatically over the next 10 years.”

Public and private sector providers of student accommodation will need to increase the volume and quality of their estates to support this growth.”

DELIVERING GREAT OUTCOMES FOR STUDENTS

We're helping some of the UK's largest student accommodation providers to deliver leading washroom facilities for students across the country.

STUDENT ACCOMMODATION £1 MILLION COST SAVINGS IN ONE YEAR WITH RADA SHOWERS

One of the UK's leading student accommodation provider turned to Rada to help reduce water and energy use and costs across its sites.

Rada recommended showers with a flow rate of six litres per minute – two to six litres per minute less than the provider's existing showers.

RADA SHOWERS HELP THE PROVIDER TO REDUCE*:

Water usage by **330 MILLION LITRES** per year

Energy usage by **11.5 MILLION KILOWATTS** per year

*based on previous usage data

**IN TOTAL?
OVER £1
MILLION IN COST
SAVINGS IN
JUST ONE YEAR.**

“Rada showers are helping us save water but also, time. The showers include brightly coloured detachable nozzle mats.

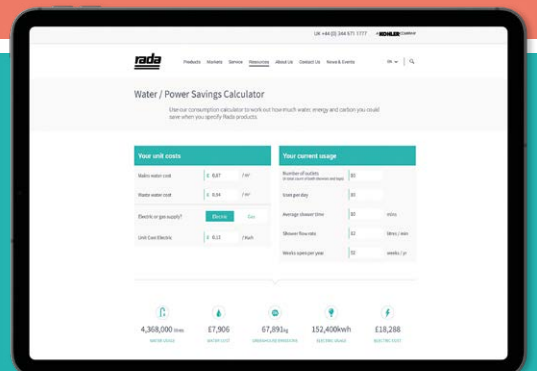

By using two of the four colours available on a rotational basis, our team can quickly identify which heads require cleaning. The nozzle mat can be easily removed and cleaned in a dishwasher. This reduces the need to use harmful cleaning chemicals and reduces the time spent cleaning.”

Estates Manager,
student accommodation
